It's our business to help protect your business.

Crawford Sprinkler Company is proud to be one of **America's oldest Fire Sprinkler Companies**. Since 1919, we have served the Southeast designing and installing quality systems. Even now, we still find some of these older systems still in service.

Our areas of operation are Western NC, Western VA, and Eastern TN. We are a **"Full-Service"** Contractor--many today are not! We offer a large inventory of parts and materials. We have a Sales/Estimating Staff and an In-House Design/Engineering Department that offer the latest in Technology CAD Design and Hydraulic Calculations. Our Fabrication Shop cuts, threads, welds, and grooves pipes readying a project for field installation. Our road crews are highly skilled and provide quality work.

Since Woodrow Wilson's Presidency, we have seen the changes and developments the years have brought. Technology advances have been tremendous and are still ongoing. **We strive to learn and grow** with these changes also. As a team, we are excited as to what lies ahead.

We have stood through a depression, wars, and various economic ups and downs. We are still here and look forward to being a part of the future. We hope that you will allow us to be a part of your next project.
